- Providing students with relevant work experience and on the job training.
- Establishing strong industry linkages for strengthening placements.
- Incorporating the suggestion from the industry for ensuring better quality in training.
- Offering soft skills training for making students industry ready.
- Continuous upgrading of infrastructure enabling students comprehend latest technology and innovations.
- Adherence to quality standards for training delivery.

Invitation for Affiliation

Rubber Skill Development Centre (RSDC) is a Sector Skill Council set up by AIRIA and ATMA in Collaboration with NSDC is focusing on skill development and training needs of the rubber sector. RSDC's key objectives are conducting research, quality assurance and improving delivery mechanism for skilling and up-skilling professionals in the rubber sector.

RSDC invites institutes for affiliation to impart training in rubber technology programs. We look forward to work with institutes who can ...

- Develop programs in accordance to NOS and RSDC's specific pedagogical and training models.
- Revamp current pedagogical practices and engage industry effectively.
- Provide world class infrastructure for hands on training
